

Escape-Mattress® Economy Line

The **Escape-Mattress® Economy Line** can be triple folded so that it is easy to move and store. Once unfolded, this evacuation mattress is immediately ready to use. This mattress can be stored both hygienically and dust-free, by using the storage bag or the Escape-Locker.

Usage:

The **Escape-Mattress® Economy Line** is mainly used in (public) buildings and in Care Homes.

Best choice for healthcare environment and public buildings

What's an Escape Mattress®?

Escape-Mattress® models are designed for individuals who would not be able to comfortably get into an evacuation chair, or where evacuation chairs may struggle (for example when evacuating an individual down a spiral staircase). Evacuation mattresses are ideal for medical centres and hospitals, as they cater for complex healthcare needs. E.g. bed-bound and unconscious patients. **The Escape-Mattress®** is an "A-label quality" product and produced in-house.

Our mattresses are CE, TÜV NORD and ISO certified for up to 150kg payload.

We guarantee the highest quality standards.
